

Date of Revision: 4/26/2020

Wright Armory Metal Finish Price List

- All pricing is for a matte surface finish. Unfortunately polished finishes are no longer available.
- Tear down and reassembly is not include in the pricing listed for each finish.
- Tear down and reassembly is required for all parts to be refinished and may be done by the customer or Wright Armory if the customer so chooses.
- All compents for coating must be in a clean or lightly oiled condition. Any firearm that is recieved in a dirty condition will be cleaned and charged accordingly.
- Any metal that has been previously plated or annodized **MUST** be chemically stripped prior to NP3, NP3+, or E-Nickel processing.
Wright Armory can have the parts chemically stripped if needed. Chem Stripping will be bid on a case by case basis as the pricing varies significantly with the design of the part and thickness of the previous finish that needs to be stripped.
- **Previously anodized aluminum pistol frames cannot be coated in NP3 or ArmorLube** as the chemical stripping process has in the past created dimensional tolerance issues which can cause reliabilty issues or safety concerns. The only finish option available for previously anodized pistol frames is cerakote.
- Aluminum pistol frames such as CZ's or other brands which have not been previously anodized can be coated with NP3 or ArmorLube.

Chemical Stripping		Retail
	Bid Case By Case	?
Pit Removal, Dent Removal, Scratch Removal		Retail
	Billed Hourly @ \$90/hr	\$90.00
Tear Down and Reassembly		Retail
	Pistols (Glock, S&W, Rugers)	\$50.00
	All other Pistols and Revolvers	\$60.00
	Pump Shotguns and Most Rifles	\$90.00
	Lever Action Rifles	\$90 - \$125
	Semi Auto Shotguns	\$90 - \$125
	Double Guns, SxS, or O/U	\$160 - \$225
